**HARYANA STATE POLLUTION CONTROL BOARD**
**C-11, SECTOR-6, PANCHKULA**
**Ph-0172-577870-73, Fax No. 2581201**
**E-mail: hspcbwatercell@gmail.com**

**HSPCB**

**No. HSPCB/WC/2026/** 12438-12439 **Dated: 05.10.2026**

To

1. TheSecretary,Governmentof India,
   Ministry of Jal Shakti, Department of Water Resources,
   River Development &Ganga Rejuvenation,
   Shram Shakti Bhawan, Rafi Marg. New Delhi.

2. TheMember Secretary,
   Central Pollution Control Board,
   PariveshBhawan, East Arjun Nagar, New Delhi

**Sub: Monthly progress Report by State of Haryana regarding Ghaggar and Yamuna Action Plan for the month of August 2026.**

Kindly refer to the subject noted above.

In this connection, it is intimated that there are two polluted river stretches in the State of Haryana i.e. river Ghaggar and Yamuna. I have been directed to enclose herewith the progress report of Ghaggar and Yamuna Action Plan of Haryana for the month of August 2026in the prescribed format, for your kind information and necessary action, please

**Sr. Env. Engineer (WC)**
**For Member Secretary**
5/10/26

**National Mission for Clean Ganga**
**Format for submission of Monthly Progress Report in the NGT Matter OA No. 673 of 2018**
**(in compliance to NGT order dated 24.09.2020)**

**For the State of Haryana**
**Upto August, 2026**

**Overall status of the State:**

**I. Total Population: Urban Population**

- ✓ Ghaggar catchment
  Population **–** 27.6 lacs

- ▪ Yamuna catchment
  Population **–** 92.4 lacs

- ❖ Other areas-
  Population- 10.8 lacs

**II. Estimated Sewage Generation (MLD):**

- ✓ Ghaggar catchment
  298.24 MLD

- ▪ Yamuna catchment
  1239 MLD

- ❖ Other areas
  117.5 MLD

**III. <u>Details of Sewage Treatment Plant:</u>**

- **Existing no. of STPs and Treatment Capacity (in MLD):**
  - ✓ Ghaggar catchment
    78 STPs of treatment capacity of 610 MLD

  - ▪ Yamuna catchment
  - ▪ 90 STPs of treatment capacity of 1535.2 MLD

  - ❖ Other areas-
    39 STPs of treatment capacity of 238.5 MLD

- **Capacity Utilization of existing STPs:**
  - ✓ Ghaggar catchment
    468.6 MLD effluent reaching STPs

  - ▪ Yamuna catchment
    1078.5 MLD effluent reaching STPs

  - ❖ Other areas
    192.21 MLD effluent reaching STPs

- **MLD of sewage being treated through Alternate technology:**
  NIL
- **Gap in Treatment Capacity in MLD:**

**Yamuna catchment**

As per census 2011, there is population of 92.4 lacs in the Yamuna catchment area which amounts to 1239 MLD of sewage generation. Currently, there is a treatment capacity of 1538.2 MLD. Further, 09 STPs of 428.5 MLD are also proposed in the Yamuna catchment area.

- **No. of Operational STPs:**

**Ghaggar catchment**

There are total 78 STPs installed in the catchment of river Ghaggar with the capacity of 610 MLD. As per latest status, 07 STPs are not meeting the prescribed parameters. The list is enclosed as **Annexure-1.**

**Yamuna catchment**

There are total 90 STPs installed in the catchment of river Yamuna with the capacity of 1535.2 MLD. As per latest status, 19 STPs are not meeting the prescribed parameters. The list is enclosed as **Annexure-2.**

**Other Areas**

There are total 39 STPs of 238.5MLD capacity installed in the other areas not falling in the catchment of rivers. Out of these 18STPs are not meeting the prescribed limits. The list is enclosed as **Annexure-3.**

**Table- Details of town wise STPs in the State of Haryana are given as under:-**

| Sr. No. | Town | Existing STP Capacity (MLD) | Capacity Being Utilized | Operational status of STP | Compliance status of STPs |
|---|---|---|---|---|---|
| **Ghaggar Catchment** | | | | | |
| 1 | Naraingarh | 3 | 1.3 | Operational | Complying |
| 2 | Ambala | 64.25 | 34.4 | Operational | 13 STPs are complying and 1STPis Non-Complying (3.25 MLD Devi Nagar, Ambala) |
| 3 | Ratia | 6.5 | 6 | Operational | Complying |
| 4 | Tohana | 10 | 9 | Operational | Complying |
| 5 | Jhakal Mandi | 3 | 1.8 | Operational | Non-complying |
| 6 | Fatehabad | 33 | 17.5 | Operational | 4 STPs are complying |
| 7 | Hisar | 102 | 98.5 | Operational | 6 STPs are complying and 1 STP is non-complying (4 MLD Kaimri Road, Hisar) |
| 8 | Narnaund | 4 | 2.4 | Operational | Complying |
| 9 | Narwana | 14 | 7.5 | Operational | 3 STPs are Complying |
| 10 | Uchana | 4.5 | 3.8 | Operational | 2 STPsare Complying |

| Sr. No. | Town | Existing STP Capacity (MLD) | Capacity Being Utilized | Operational status of STP | Compliance status of STPs |

## V. Solid Waste Management:

- **Total number of Urban Local Bodies and their Population.**
  There are 87 Municipalities in the State, Solid Waste Management 6927 TPD is daily generation of Municipal Solid Waste and the population of all Municipalities is 87,42,103 as per Census 2011.

- **Current Municipal Solid Waste Generation.**
  6927.18 TPD is daily generation of Solid Waste in the State. Brief status regarding management of Solid Waste in ULBs is as under:-

| SWM Activities in State | Quantity |
|---|---|
| Total no. of Wards | 1692 |
| Quantity of Solid Waste | 6927.18 |
| No. of Wards with 100% Door to Door | 1692 |

| SWM Activities in State | Quantity |
|---|---|
| Collection | |
| No. of Wards where segregation is initiated | 1185 |
| Quantity of Wet Waste | 3603 |
| Quantity of Dry Waste | 2781 |
| Quantity of Wet waste being processed | 2177 |
| Quantity of Dry waste being processed | 1697 |
| No. of Vehicle for Door to Door Collection | 2907 |
| No. of Vehicle with Compartment | 2551 |
| No. of Vehicle with GPS | 2999 |
| No. of GVP Identified | 200 |
| No. of BWG Identified | 965 |
| No. of BWG processing on Site | 527 |
| No. of Solid Waste Challan collected in last three month | Total No. of 3463 Challan of amounting Rs. /- 38,69,301 |
| No. of Plastic Waste Challan collected in last three month | Total No. of 5030 Challan of amounting Rs. 27,60,350/- |

For processing of dry waste 88 Material Recovery Facilities (MRF) has also been constructed in various Municipalities for channelization of dry waste.

- **Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), bio methanation, MRF etc.**
-

As per report submitted by ULBD, there are two existing operational centralized Waste to Compost (WTC) facilities in the State at Rohtak (175 TPD) & Karnal (150 TPD). Apart from the above, two Bio-Methanation plants are operational in Faridabad (5TPD) & Karnal (15 TPD).

Further, Waste to Energy Plant at ISWM Sonepat-Panipat Cluster of 700 TPD capacities has been commissioned on 16.08.2021. Approximate 6.77 MW electricity is being generated in this plant.

4 Waste-to-Energy (WtE) Plants are under implementation i.e. at Gurugram-Manesar, Ambala, Hisar and Faridabad. Out of these, MoUs for 4 WtE Plants have already been signed, namely at Gurugram, Faridabad, Hisar and Ambala and DPR for establishing these WtE plants is being prepared.

- **Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%)**

At present, out of 87 ULBs in the State of Haryana, 31 ULBs are covered under four ISWM clusters, namely Bhiwani Cluster, Sonipat-Panipat Cluster, Karnal-Kaithal-Thanesar Cluster and Sirsa Cluster.

For the remaining ULBs, the Government has circulated RFPs for a period of 5 years for Door-to-Door Collection and Transportation of daily generated MSW and for a period of 10 years for processing of daily generated MSW. At present, 48 works of D2D Collection and Transportation have already been allotted under the latest RFP, whereas 22 works of MSW processing have been allotted under the latest RFP.

Further, 5 Waste-to-Energy (WtE) Plants were announced by the Hon'ble Chief Minister, Haryana, during the Budget Announcement 2025-26. Out of these, MoUs for 4 WtE Plants have already been signed, namely at Gurugram, Faridabad, Hisar and Ambala. In these districts, the MSW processing works for a shorter period of 2–3 years are at different stages of tendering & allotment, keeping in view the proposed establishment of the WtE plants.

- **Bioremediation of legacy waste lying at existing dump sites.**
  Approximate 106 Lakh Metric Ton of legacy waste was lying at the dumping sites in Municipalities, out of which 89.70 lakh MT (84%) of legacy waste has been remediated. The details of the same areas under:-

  **Status of bioremediation of legacy waste in the Municipalities of State of Haryana**

  The State Government has approved Rs. 401.19 Crore for bioremediation of legacy waste and out of approved amount Rs. 25.24 Crore has been released.

- **Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source**

  As per report submitted by ULBD, there are total 1692 wards in MCs of Haryana out of which 1692 wards have been covered with door to door waste collection services. Out of the total wards, source segregation has been initiated in 1185 wards.

- **Details of MSW treatment facilities proposed and under construction (no., capacity, and technology).**
  Detail is attached at **Annexure-4.**

- **No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills.**
  The detail of dumpsites attached at **Annexure-5**.

- **No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers**

  The drains of MCs don't falls directly into the rivers. They ultimately join the drains of irrigation and the drains of irrigation falls into the rivers. The MCs are installing the wire mesh in the drains to prevent the solid waste from falling into the drains. At present approximate 387 small drains have been provisioned with wire mesh screens.

**VI. <u>Bio-medical Waste Management:</u>**

- **Total Bio-medical generation:**
  As per annual report 2024-2025, approx. 22.33 TPD Bio Medical Waste is generated in State of Haryana.

- **No. of Hospitals and Health Care Facilities:**
  As per annual report 2024-2025, there are 7647 no. of HCFs in State of Haryana.

- **Status of Treatment Facility/ CBMWTF**:
  There are 11 no. of authorized CBWTFs/ Treatment facilities in State of Haryana.

## VII. Hazardous Waste Management:

**Total Hazardous Waste generation:** 242754.2966 tons
**No. of Industries generating Hazardous waste**- 7229
**Treatment Capacity of all TSDFs**

Incinerator (Kcal) - 2.5 Million
Landfill (MTA) - 30 years

**Avg. Quantity of Hazardous waste reaching the TSDFs and Treated**

| Hazardous waste reaching TFDFs | Hazardous waste treated |
|---|---|
| Landfill -25250.096 MT<br>Incineration – 19509.294 MT | Landfill -25250.096MT<br>Quantity Incinerated – 19509.294 MT |

**Details of on-going or proposed TSDF-** Details given at **Annexure-6**

## VIII. Plastic Waste Management:

- **Total Plastic Waste generation**:
  As per annual report 2025-26, approx. 260632 TPA plastic waste is generated/collected in the State.

- **Treatment/ Measures adopted for reduction or management of plastic waste:**
  At present plastic waste is being channelized through MRF centers established in MCs.

## IX. Details of Alternate Treatment Technology being adopted by the State/UT

The Nodal Department for execution of Bio/ Phyto- Remediation identified. The SPV also asked the Department to submit the locations where the phyto remediation/bio-remediation wherever feasible.

ULB Department has started bio/ phyto remediation works in the drains in Municipal Corporation, Yamuna Nagar – Jagadhri, as a pilot project, which will be replicated at other places. Municipal Corporation of Sonepat has also invited tenders for the bio/ phyto remediation of drains. Similarly, Municipal Corporations of Gurugram and Faridabad are in the process of preparing the proposals for bio/ phyto remediation. Municipal Corporation of Panipat has already floated the tenders for the process in their jurisdiction. GMDA has also initiated a pilot project as an interim treatment for untreated discharge of Leg I via geo-synthetic dewatering tubes in consultation with CPCB. PHED has undertaken the *in-situ*phyto/bio remediation in its new STPs at Indri and Beri. Chief Secretary, during the review meeting held, has also directed that all concerned Departments shall expedite the work on Bio/Phyto-Remediation.

## X. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in situ treatment:

There are locations where the untreated/partially treated effluent is joining the main drains discharging into rivers. The action plans for control of pollution at these points is required to be submitted by Concerned Departments.

**River Ghaggar**

| Deptt. | Total locations | Status of Action Plan | | | |
|---|---|---|---|---|---|
| | | Submitted action plan | Not submitted Action plan | Not submitted Time Bound action plan | Action plan not required/completed |
| PHED | 51 | 17 | 4 | 7 | 23 |

**XI. Details of Nodal Officer appointed by Chief Secretary in the State/UT:**

Member Secretary, Haryana State Pollution Control Board.

**XII. Details of meetings carried under the Chairmanship of Chief Secretary in the State/UT:**

Regular CS meetings are being held to review the progress of Yamuna and Ghaggar Action Plans. The Meetings held so far on 29.08.2019, 20.12.2019, 05.02.2020, 13.03.2020, 22.06.2020 17.07.2020, 06.08.2020, 08.09.2020, 08.12.2020, 12.02.2021, 02.08.2021, 28.03.2022, 06.05.2022, 27.07.2022, 20.10.2022, 27.03.2023, 10.04.2023, 23.04.2024, 20.05.2024, 20.05.2025, 27.05.2025, 03.07.2025, 23.09.2025, 16.10.2025, 27.10.2025, 03.12.2025, 03.01.2026, 12.03.2026, 27.03.2026, 18.08.2026, 25.08.2026, and 09.09.2026.

**XIII. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river.**

**Ghaggar**

**(a) Water quality and flow of major drains joining river Ghaggar**

| Sr. No. | Name of drain | latitude/ Longitude | Flow (in MLD) | BOD (mg/l) | F. Coli |
|---|---|---|---|---|---|
| 1 | Discharge of STP, Sec-28, Panchkula at Vill- Kakrali, Punjab. (PKL-RDQ-023) | 30.642798/ 76.874462 | 8.50 | 7 | 500 |

**(C) Ground water quality status in the vicinity of river Ghaggar**

Ground water quality is being monitored at 75 locations in the catchment of river Ghaggar by HSPCB. Out of total 75 locations, ground water is found fit for drinking at 58 locations and non-complying at 17 locations. Directions have already been conveyed to all the task forces to cap such water sources and a display board mentioning that “Water is not for drinking purpose” may be placed.

| Sr. No. | Region | No. of points monitored | Complying | Non-complying |
|---|---|---|---|---|
| 1 | Panchkula | 7 | 0 | 7 |
| 2 | Ambala | 7 | 0 | 7 |

**(C) Ground water quality status in the vicinity of river Yamuna**

Ground water quality is being monitored at 89 locations in the catchment of river Yamuna by HSPCB. Out of total 89 locations, ground water is found fit for drinking at 47 locations and non-complying at 42 locations. Directions have already been conveyed to all the

task forces to cap such water sources and a display board mentioning “Water is not for drinking purpose” may be placed. The same has been compiled by the taskforces.

| Sr. No. | Region | No. of Points monitored | Complying | Non-Complying |

**XIV. Ground water regulation:**

The industries are being persuaded to obtain permission from CGWA/HWRA for extraction of ground water.

**XV. Good irrigation practices being adopted by the State:**

The major demand for river water is for Irrigation purposes and accordingly the State of Haryana has taken initiatives for water efficient farming practices which are given as under:-

**(a) Project of Recycle and Ruse of Treated Wastewater for Irrigation Purpose Phase-1**

**(b) Installation of community based solar/grid powered micro-irrigation infrastructure in existing canal commands**

Six community based solar/grid powered micro-irrigation facilities have been installed for irrigation of 768 hectare land.

In order to implement project of Micro Irrigation (MI) speedily, Government has decided to adopt bottom-up approach i.e. 100% consent of stakeholders (farmers) for adoption of MI system shall be taken before execution of the project.

The farmers or group of farmers who come forward with the chak of minimum 25 acres to adopt micro irrigation in their fields and also give consent to provide land free of cost for construction of tank for storage of water as per requirement of the chak for micro irrigation activity,

Government shall provide all infrastructures like: laying of pipelines, construction of storage tanks, solar pumps etc. free of cost & 95% subsidy shall be provided to on-farm drip and sprinkler micro irrigation components.

The web portal for online application of farmers has also been launched.

## XVI. Demarcation of Floodplain and removal of illegal encroachments:

## A. IDENTIFICATION AND DEMARCATION OF RIVER GHAGGAR AND TRANSLATION ON GIS MAP

In this regard, it is submitted that the floodplain area of River Ghaggar falling in villages Ramgarh, Ber Ghaggar, Jhuriwala Mouja, Mouja Bana Madanpur, Devi Nagar, Chowki, Burj Kotian, and Gumthala in District Panchkula covers a total area of 529.25 acres. The requisite procedure for fixing boundary pillars for demarcation of the floodplain zone under Section 45 of the Haryana Canal and Drainage Act, 1974 has been duly completed. Further, the notification in this regard has already been approved vide Notification dated 27.10.2023 (copy enclosed).

### Issue of Flooding in River Ghaggar

The issue of flooding in River Ghaggar has been under active consideration for the past three decades by the Ghaggar Standing Committee (GSC), which was constituted on 26.02.1990 under the chairmanship of Member (River Management), Central Water Commission (CWC). The GSC constituted a team of experts comprising representatives from co-basin states and the CWC to suggest remedial measures after examining vulnerable locations in the Ghaggar basin.

The expert committee recommended various measures, including:

a. Construction of embankments on both banks;

b. Remodeling of cross-drainage works;

c. Exploration of possibilities for construction of dams/reservoirs.

During the 28th meeting of the Ghaggar Standing Committee (GSC) held on 01.03.2019, it was decided to undertake a purpose-driven Mathematical Model Study (MMS) for the entire Ghaggar basin to effectively manage flooding. The study was entrusted to CWPRS, Pune. The final report of the said study was submitted by CWPRS, Pune on 20.09.2021.

Subsequently, the matter was heard by the Hon'ble Supreme Court on 05.08.2022, and orders were issued on 17.08.2022/15.11.2022 directing the State Governments to take appropriate time-bound action in accordance with the recommendations contained in the final MMS report. The Hon'ble Court further directed that a Detailed Project Report (DPR) be prepared based on the recommendations of CWC/CWPRS, Pune to address the issue of recurring flooding in the Ghaggar basin affecting various villages.

However, the State of Haryana and Punjab raised concerns during subsequent GSC meetings that the Mathematical Model Study conducted by CWPRS, Pune should be revised based on the actual floods observed during the Monsoon 2023.

Accordingly, in the 34th meeting of the GSC, it was decided that CWPRS, Pune would re-run the Mathematical Model Study based on the flood events of 2023.

Further, during the latest meeting of the GSC held on 06.04.2026, both the States of Haryana and Punjab were directed to complete the LiDAR survey of River Ghaggar and furnish the requisite data to CWPRS, Pune to facilitate updated model studies based on recent flood events of 2023.

In compliance with the directions issued, consent has been given by the State of Haryana to the State of Punjab for floating a single tender for the complete stretch of River Ghaggar for carrying out the LiDAR survey, so that the necessary data can be supplied to CWPRS, Pune for revision of Model Studies. The tenders for the said work have already been floated by the State of Punjab and the work is likely to be completed by 30.10.2026.

It is pertinent to mention that a Digital Elevation Model (DEM) of River Ghaggar is also being prepared, which will capture the actual river geometry, including its length, width, and details of encroachments, if any.

The matter is presently listed before the Hon'ble Supreme Court for January 2027, for which a comprehensive status report is to be submitted by CWC/GSC.

**ENCROACHMENT IN RIVER GHAGGAR/FLOOD PLAIN AND ACTION THEREOF**

The details of the encroachment, districtwise are as under:-

| Sr. No. | District | Name ofDrain/River | Length in KM | Location of Encroachments | Area of Encroachment | Action/ Present Status |
|---|---|---|---|---|---|---|
| 1. | Panchkula | River Ghaggar | 8.50 | Near U/s Right Side of Majri Chowk Bridge | 1486 Sq.Km. | Public Notice already circulated in the area For evacuation |
| 2. | Ambala | River Ghaggar | 6.70 | NIL | NIL | NIL |
| 3. | Kaithal | River Ghaggar | 62.80 | NIL | NIL | NIL |
| 4. | Fatehabad | River Ghaggar | 68.10 | NIL | NIL | NIL |
| 5. | Sirsa | River Ghaggar | 32.11 | NIL | NIL | NIL |
| | **Total** | | **180KM (Approx.)** | | | |

It is reiterated that Flood Plain Zoning under Section 45 of the Haryana Canal and Drainage Act, 1974 has already been carried out in District Panchkula, and accordingly, the details of encroachments have been identified as reported above.

However, in other areas, notifications under Section 45 have not yet been issued. Upon issuance of such notifications, the exact details of encroachments will be ascertained, and necessary notices will be issued to the concerned defaulters in accordance with the provisions of the Act.

However, as per the instructions of the Government of India, the area falling within 100 metres from the edge of the river is considered a No Development/Construction Zone till the Flood Plain Zone is notified.

## B. IDENTIFICATION AND DEMARCATION OF RIVER YAMUNA

In Jagadhri (Distt. Yamunanagar), the River Yamuna has a total length of 64.30 km, out of which 59.30 km length of the River Yamuna stands notified under Section 45 of the Canal and Drainage Act, 1974 (which gives the State Government the power to prohibit obstructions in rivers, streams, or drainage channels or order their removal), vide Haryana Government Notification No. 6843/1L dated 14.09.2015 and the Executive Engineer, HKB Division No. 1, Jagadhri letter No. 3728/1L dated 28.09.2015. The balance 5 km length of the River Yamuna falls in the territory of Uttar Pradesh.

Further, Flood Plain Zoning is under process in Haryana in accordance with the latest CWC Technical Guidelines on Flood Plain Zoning (2025), the directions of the Hon'ble Supreme Court of India in Civil Appeal No. 2267 of 2020, the directions of the National Mission for Clean Ganga (NMCG), and other applicable Government instructions.

Meanwhile, vide Department Memo No. 2/43/2024-1IW dated 28.06.2024, it has been decided that until the identification and notification of the floodplain zones of River Yamuna under Section 45 of the Canal and Drainage Act, 1974, is completed, an area extending 100 metres from the edge of River Yamuna shall be designated as a "No Development/Construction Zone", in compliance with the directions of NMCG and the Hon'ble NGT.

**XVII. Maintaining minimum e-flow of river:**

**River Ghaggar**

It is brought out that Ghaggar River is not a perennial river and discharge varies from zero to maximum during flood seasons. Around 15-20% of the lowest possible discharge in the lean season is required for maintaining E- flow. In our case, the discharge varies from zero to the maximum discharge; therefore, maintaining environmental flow (E-flow) throughout the year is not feasible. However, the monthly flow of all the major drains joining river Ghaggar is being measured regularly on monthly basis.

**River Yamuna**

It has been reported by the Irrigation and Water Resources Department, Haryana, that as per the MoU dated 12.05.1994 signed among the States of UP, Haryana, Rajasthan, Himachal Pradesh & NCT of Delhi, a minimum discharge of 352 cusec water is released in Yamuna river from Hathnikund barrage at lean period also to maintain the E-flowof river which was in accordance with the guidelines of Ministry of Water Resources, River Development & Ganga Rejuvenation, Govt. of India in compliance of the order of Hon'ble NGT dated 11.06.2015. However, in case excess discharge is received at HKB (in monsoon seasons) in comparison to capacity of channel, then this excess discharge is released into river Yamuna.

**XVIII. Plantation activities along the rivers:**

**River Ghaggar**
